

SAVITRIBALPHULE PUNE UNIVERSITY

FACULTY OF SCIENCE AND TECHNOLOGY

**RULES AND SYALLABUS FOR
BACHELOR OF PHARMACY PRACTICE COURSE - 2019 pattern
(EFFECTIVE FROM ACADEMIC YEAR 2019-2020)**

CHAPTER-I

1. Short title and commencement. –

(1) These regulations shall be called as “The Revised Regulations for the **Bachelor of Pharmacy (Practice)** Degree Program of the Pharmacy Council of India, - **Bachelor of Pharmacy (Practice) Regulations, 2014. New Delhi**”. They shall come into effect from the Academic Year 2019-20. The regulations framed are subject to modifications from time to time by Pharmacy Council of India.

2. **Bachelor of Pharmacy (Practice)** [B.Pharm. (Practice)] Shall consist of a degree certificate of having completed the course of study and passed examination as prescribed in these regulations for the purpose of additional qualification to be entered in the register of pharmacists.

CHAPTER-II

3. Duration of the course. –

The duration of the course shall be of two academic years with each year spread over a period of not less than 180 working days

4. Minimum qualification for admission to the course –

- a) A pass in Diploma course in Pharmacy from an institution approved by the Pharmacy Council of India under section 12 of the Pharmacy Act, 1948.
 - b) A registered pharmacist.
 - c) A minimum of four years of pharmacy practice experience in a community or hospital pharmacy –
 - a. A certificate from competent authority stating that the candidate is endorsed as registered pharmacist in the drug license of a pharmacy as proof of practice experience in case of community pharmacist
 - b. A certificate from the Principal/Medical Superintendent/competent person of the Hospital/Health Unit stating that the candidate is working as a pharmacist will be accepted as proof of practice experience in case of hospital pharmacist
- ii. A ‘No Objection Certificate’ from the employer in prescribed format (Annexure -A)
- Provided that there shall be reservation of seats for the students belonging to the scheduled castes, scheduled tribes and other backward classes in accordance with the instructions issued by the Central Government/State Government/Union Territory Administration, as the case may be, from time to time.

5. **The number of admissions** in the programme shall be as prescribed by the Pharmacy Council of India from time to time and presently be restricted to 40 students in an academic year

6. Approval of the authority conducting the course of study –

- a. No pharmacy institution shall start Bachelor of Pharmacy (Practice) programme or increase the number of admission without obtaining the prior approval of the Pharmacy Council of India.
- b. Any pharmacy college for the purpose of obtaining permission under sub-section (1) of section 12 of the Pharmacy Act shall submit a scheme as prescribed in Appendix-I by the Pharmacy Council of India.

- c. The scheme referred to in sub-regulation (b) above, shall be in such form and contain such particulars and be preferred in such manner and be accompanied with such fee as may be prescribed.
- d. The institutions approved by the Pharmacy Council of India for running Bachelor of Pharmacy course under section 12 of the Pharmacy Act, 1948 alone shall be eligible for starting Bachelor of Pharmacy (Practice) degree course.

Provided that the Pharmacy Council of India shall not approve any institution under these regulations unless it provides adequate arrangements for teaching in regard to building, accommodation, laboratories, equipments, teaching staff, non-teaching staff, etc., as specified in Appendix-II to these regulations.

7. **Course of study.** –The course of study shall consist of the subjects as given in the Tables below. The course shall consist of class room teaching and assignment works. The assignment works shall be done at the place of work under the supervision and guidance of teaching staff of the academic institution. The number of contact hours in a week devoted to each subject for class room teaching shall not be less than that noted against it in columns (3) below.

TABLE – I First Year :

S.No.	Name of Subject	Minimum No. of total contact hours	No. of contact hours /week
(1)	(2)	(3)	(4)
1.1	Pathophysiology and Pharmacotherapeutics I	40	1
1.2	Pathophysiology and Pharmacotherapeutics II	40	1
1.3	Pharmacy Practice I	40	1
1.4	Pharmacy Practice II	40	1
1.5	Applied Pharmaceutics	40	1
1.6	Social Pharmacy I	40	1
1.7	Case presentation, Seminar, Assignments	160	4
	Total	400	10

Second Year :

Sr.No.	Name of Subject	Minimum No. of total contact hours	No. of contact hours /week
(1)	(2)	(3)	(4)
2.1	Pathophysiology and Pharmacotherapeutics III	40	1
2.2	Pathophysiology and Pharmacotherapeutics IV	40	1
2.3	Pharmacy Practice III	40	1
2.4	Pharmacy Practice IV	40	1
2.5	Social Pharmacy II	40	1
2.6	Pharmaceutical Jurisprudence	40	1
2.7	Case presentation, Seminar, Assignments	160	4
	Total	400	10

Sr.No.	Name of Subject	Minimum No. of total contact hours	No. of contact hours /week
(1)	(2)	(3)	(4)
2.1	Pathophysiology and Pharmacotherapeutics III	40	1
2.2	Pathophysiology and Pharmacotherapeutics IV	40	1
2.3	Pharmacy Practice III	40	1
2.4	Pharmacy Practice IV	40	1
2.5	Social Pharmacy II	40	1
2.6	Pharmaceutical Jurisprudence	40	1
2.7	Case presentation, Seminar, Assignments	160	4
	Total	400	10

8. **Syllabus.** – The detailed syllabus for each subject of study in the said Tables shall be as specified in the guidelines given in Appendix-III. The guidelines may, with the approval of Central Council of the Pharmacy Council of India, be amended and notified from time to time.

9. **Examination.** –

1. There shall be an examination at the end of calendar year. The first examination shall be the annual examination and the second examination shall be supplementary examination.
2. The examinations shall be of written nature for theory and for the practicals: The students shall submit the assignments done by them in the form of a report which will be followed by viva-voce carrying maximum marks for each part of a subject as indicated in Tables below :

TABLE -II
FIRST YEAR EXAMINATION

Sr.No.	Name of Subject	Maximum marks for Theory			Maximum marks for Assignments (including Viva voce 25%)
		University Examination	Sessional marks	Total	
1.1	Pathophysiology and Pharmacotherapeutics I	60	40	100	100
1.2	Pathophysiology and Pharmacotherapeutics II	60	40	100	100
1.3	Pharmacy Practice I	60	40	100	100
1.4	Pharmacy Practice II	60	40	100	100
1.5	Applied Pharmaceutics	60	40	100	100
1.6	Social Pharmacy I	60	40	100	100
	Total			600	600

2nd Year examination :

Sr.No.	Name of Subject	Maximum marks for Theory			Maximum marks for Assignments (including Viva Voce- 25%)
		University Examination	Sessional marks	Total	
1.1	Pathophysiology and Pharmacotherapeutics III	60	40	100	100
1.2	Pathophysiology and Pharmacotherapeutics IV	60	40	100	100
1.3	Pharmacy Practice III	60	40	100	100
1.4	Pharmacy Practice IV	60	40	100	100
1.5	Social Pharmacy - II	60	40	100	100
1.6	Pharmaceutical Jurisprudence	60	40	100	100
	Total			600	600

10. Eligibility for appearing at the examination.— A student who produces a certificate from the Head of the Institution in which he has undergone the course in proof of his having regularly and satisfactorily undergone the course of study by attending not less than 80% of the classes held in theory and has submitted the assignments/ project report duly approved by the supervising teacher shall be eligible for appearing at the examination.

11. Mode of examinations.—

- (1) Theory examination shall be of three hours duration.
- (2) A student who fails in theory examination of a subject shall be permitted to re-appear in that subject
- (3) Assignment work shall consist of evaluation of report by both internal & external examiners with a seminar and viva –voce (Oral) examination.

12. Award of sessional marks and maintenance of records.—

- (1) A regular record of theory examinations conducted in an institution imparting the Bachelor of Pharmacy (Practice) Course, shall be maintained for each student in the institution and 40 marks for each subject shall be allotted as internal assessment.
- (2) There shall be at least three periodic sessional examinations during each year and the highest aggregate of any two performances shall form the basis of calculating sessional marks.

13. Minimum marks for passing examination.— A student shall not be declared to have passed examination unless he secures at least 50% marks in each of the subjects separately in the theory examinations, including sessional marks and at least 50% marks in assignment work. The students securing 60% marks or above in aggregate in all subjects in a single attempt at the examination shall be declared to have passed in first class. A student securing 75% marks or above in any subject or subjects shall be declared to have passed with distinction in the subject or those subjects provided he passes in all the subjects in a single attempt.

14. Eligibility for promotion to next Class.—

1. All students who have appeared for all the subjects and passed the examination are eligible for promotion to the next year.
2. The student failing in subjects of 1st year B.Pharm. (Practice) examination shall be permitted to proceed to the 2nd year of B.Pharm. (Practice). However, such students shall have to pass all the subjects of the 1st and 2nd year of B.Pharm. (Practice) course and shall complete the course within 4 academic years from the session in which he was admitted in the course, for the consideration of B.Pharm. (Practice) degree.

15. Approval of examinations.— Examinations mentioned in regulations 9 to 12 and 14 shall be held by the examining authority approved by the Pharmacy Council of India under sub-section (2) of Section 12 of the Pharmacy Act, 1948.

16. Certificate of passing examination.— every student who has passed the examinations for the Bachelor of Pharmacy (Practice) shall be granted a degree certificate by the examining authority.

CHAPTER-III

17. Assignment Work

1. To allow the student to understand and develop data collection and reporting skills in the area of community, hospital and clinical pharmacy in particular and principles of pharmacy practice in general, the assignment work shall be carried out under the supervision of a teacher of the Academic Institution on the topic approved by the Head of the Academic Institution. The same shall be announced to students within one month of commencement of the classes in each of the subjects for the session. Assignment shall be presented in a written report and as a seminar before the final examination. External and the internal examiners appointed by the examining authority for the said purpose shall do the assessment of the work done.
2. Assignment work shall comprise of objectives of the work, methodology, results, discussions and conclusions.

18. Objectives of Assignment work.— The main objectives of the work is to—

- (i) show the evidence of having made accurate description of work and of having recorded the findings in an impartial manner; and
- (ii) Develop the student's skills in data collection, analysis and reporting and interpretation skills.

- 19. Methodology.**— To complete the work following methodology shall be adopted, namely:—
- (i) Not more than ten students shall work under an authorized teacher;
 - (ii) The topic shall be approved by the Head of the Department or Head of the Institution;
 - (iii) The work chosen shall be related to the subjects taught in a particular session and due consideration has to be given regarding the suitability for carrying out the work in his workplace.
- 20. Reporting .**— (1) Student working on the assignment shall submit the report after completion of work to the Head of the Department or Head of the Institution. The report should include a certificate issued by the authorized teacher.
- (2) Submission of the report shall be done at least one month prior to the commencement of annual examination.
- 21. Evaluation.**— The following methodology shall be adopted for evaluating assignment work— Evaluation shall be done on the following items: **Marks**
- | | |
|---|--------------------|
| a) Write up of the assignment | (40) |
| b) Presentation of work | (15) |
| c) Seminar | (20) |
| d) Question and answer skills (viva voce) | (25) |
| Total | (100 marks) |

CHAPTER-IV

- 22. The fees** for the course shall be prescribed by Pharmacy Council of India from time to time for guidance to the State Government/Course Conducting Authorities.

Annexure-A

{See regulation 4(iv)}

Format for ‘No Objection Certificate’ from the Employer

This to certify that ----- son / daughter of ----- is working in this Institution / Pharmacy as ----- since and the undersigned has no objection if he gets himself admitted in the Bachelor in Pharmacy (Practice) Course for the session

He will be allowed to attend the course and facilities will be provided for carrying out the assignments as part of course in this Institution/Organization.

Signature and seal of the authorized person.

Course curriculum

Pathophysiology and Pharmacotherapeutics I

Scope:

Practicing pharmacists will have opportunity to review the case notes or prescriptions in their practice setting and able to identify and resolve the drug related problems. This will ensure the improved patient care and decreases the unnecessary health care expenditure.

Objectives:

Upon completion of the course, the student will be able to

- (a) Understand the anatomy and physiology of the respective system
- (b) understand the disease process
- (c) Know the signs and symptoms of the disease.
- (d) Appreciate the various therapeutic regimens with their advantages and disadvantages.

Course duration:

Learning

40 hours of learning by blended mode of teaching. Blended teaching includes didactic and onsite learning.

Case Presentations

During the course each student should present **5 cases** covering the diseases prescribed in the syllabus.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination.

Detailed Syllabus and Lecture Schedules

- 1. Introduction to pathophysiology and therapeutics - scope and objectives - 1 hr**
- 2. Prescribing guidelines (Drug and dosage selection and dose calculation) for - 4 hrs**
 - a) Pediatrics
 - b) Geriatrics
 - c) Pregnant and breast feeding women
 - d) Renally and hepatically challenged patients
- 3. Elements of anatomy, etiopathogenesis, diagnostic techniques, clinical manifestations and pharmacotherapeutics of diseases associated with Cardiovascular System - 15 hrs**
 - (a) Hypertension
 - (b) Ischemic Heart diseases (Angina and Myocardial Infarction)
 - (c) Hyperlipidemia
 - (d) Congestive Heart Failure
 - (e) Arrhythmias

4. Elements of anatomy, Etiopathogenesis, diagnostic techniques, clinical manifestations and pharmacotherapeutics of diseases associated with Respiratory System - 12 hrs

- (a) Asthma
- (b) COPD
- (c) Drug induced pulmonary diseases

5. Elements of anatomy Etiopathogenesis, diagnostic techniques, clinical manifestations and pharmacotherapeutics of diseases associated with Endocrine System - 8 hrs

- (a) Diabetes.
- (b) Thyroid diseases

Books / References: Suggested Assignments:

Pathophysiology and Pharmacotherapeutics II

Scope:

Practicing pharmacists will have the opportunity to review the case notes or prescriptions in their practice setting and able to identify and resolve the drug related problems. This will ensure the improved patient care and decreases the unnecessary health care expenditure.

Objectives:

Upon completion of the course, the student will be able to

- (a) Understand the anatomy and physiology of respective system
- (b) Understand the disease process
- (c) Know the signs and symptoms of the disease.
- (d) Appreciate the various therapeutic regimens with their advantages and disadvantages.

Course duration:

Learning

40 hours of learning by blending method.

Blended mode of education and includes didactic and onsite learning.

Case Presentations

During the course each student should present **5 cases** covering the diseases prescribed in the syllabus.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination.

Detailed Syllabus and Lecture Schedules

1. Elements of anatomy, Etiopathogenesis, diagnostic techniques, clinical manifestations and pharmacotherapeutics of diseases associated with CNS - 18 hr

- (a) Anxiety
- (b) Depression
- (c) Schizophrenia,
- (d) Manic depressive disorders

- (e) Epilepsy,
- (f) Parkinson's disease,
- (g) Headaches

2. Elements of anatomy, Etiopathogenesis, diagnostic techniques, clinical manifestations and pharmacotherapeutics of diseases associated with GI Disorders 10 hrs -

- (a) Dyspepsia,
- (b) Acid Pepsin Disease,
- (c) Inflammatory Bowel Disease.
- (d) Liver disorders- Hepatitis, Gall stones, Alcoholic Liver Disease.

3. Elements of anatomy, etiopathogenesis, clinical manifestations and pharmacotherapeutics of diseases associated with hematological System - 8 hrs

- (a) Erythropoietic system – Over view, Iron deficiency anemia, Megaloblastic anemia, Sideroblastic anemia, Hemolytic anemia, Venous Thromboembolism, Arterial Thromboembolism, and Drug induced blood disorders.

Books and references

Suggested topics for assignment

Pharmacy Practice I Scope

Practicing pharmacists have opportunity to provide various patient care services to improve the patient's health in community settings through counselling, health screening services, and other education programs. In hospital settings, pharmacists can ensure appropriate dispensing, education to patient, and provide all hospital pharmacy services including clinical pharmacy services such as drug information and ADR reporting.

Objectives:

Upon completion of the course, the student will be able to

- (a) Understand the professional roles of pharmacists in community, hospital and clinical pharmacy areas.
- (b) Understand the professional responsibilities of the pharmacists.
- (c) Provide the intended services.

Course duration:

Learning

40 hours of learning by blending method. Blending method includes didactic and onsite learning.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination.

Detailed Syllabus and Lecture Schedules

- 1. Introduction to Pharmacy Practice – Definition, patient focused approach, scope/areas of practice- 1 hour**

2. Introduction to Clinical Pharmacy - 3Hrs

- a) Definition, Scope, Objectives of Clinical Pharmacy Practice
- b) International v/s National scenario
- c) Professional responsibilities of Clinical Pharmacists.

3. Clinical Pharmacy daily activities - 6 hrs

- a) Definition, objectives and procedures of
 - i) Ward round participation
 - ii) Treatment chart review
 - iii) Drug information
 - iv) Patient counseling
 - v) ADR monitoring and reporting
 - vi) Therapeutic drug monitoring.
 - vii) Home Medication Review

b) Patient Data analysis - 02 hours

Patient case history, drug therapy evaluation, identification and resolving of drug related problems.

4. Practice Management : - 08 hrs

- a. Professional practice standards - Good Pharmacy Practice – in detail including Good storage practice, good dispensing practices, etc. (national and international scenario) (for both community and hospital pharmacy)
- b. Pharmacy Practice Regulations (PCI), Code of Ethics for Pharmacists
- c. SOPs, writing SOPs, Documentation, writing various record formats for community and hospital pharmacy, validation of various processes in Hospital & Community Pharmacy.
- d. Concept of Accreditation of Pharmacies
- e. Validation concepts & instruments for community pharmacy and hospital pharmacy
- f. Concept of Audits in community and hospital pharmacy

5. Hospital and Hospital Pharmacy Organisation - 6 Hrs

- a) Definition of Hospital, Hospital Pharmacy, Organizational Structure of Hospital, Hospital Pharmacy, professional roles and responsibilities of hospital pharmacist.
- b) Advantages, need and disadvantages/risks of Hospitalization. Nosocomial infections/HAI – worldwide scenario, statistics/prevalence, dangers, precautions to take. Problems related to hospitals, high risk environment.
- c) International scenario vs Indian Scenario of Hospital Pharmacy Practice.
- d) Hospital Pharmacy Practice - Requirements for functioning of hospital pharmacy, Qualification and experience requirements for pharmacists, work load statistics.
- e) Standards of Pharmacies in hospitals

6. Drug Committees - 4 Hrs

Pharmacy and Therapeutics Committee, Hospital Formulary, Infection Control committee, Institutional Review Board.

7. Community Pharmacy - 8 hrs

- a) Definition, scope and professional responsibilities of community pharmacist.
- b) International scenario vs Indian Scenario of Community Pharmacy Practice
- c) Pharmacy Assistant/Technician/Salesperson – roles and responsibilities,
- d) Community pharmacist's services to other health care professionals, and to nursing homes

8. Community Pharmacy Management - 4 hrs

Selection of site, legal requirements, procurement, storage, and inventory control, product display, finance management.

Books and references Suggested assignment topics

Pharmacy Practice II Scope

Practicing pharmacists have opportunity to provide various patient care services to improve the patient's health in community settings through counseling, health screening services, and other education programs. In hospital settings, pharmacists can ensure appropriate dispensing, education to patient, and provide all hospital pharmacy services including clinical pharmacy services such as drug information and ADR reporting

Objectives:

Upon completion of the course, the student will be able to

- a) Understand the professional roles of pharmacists in community, hospital and clinical pharmacy areas.
- b) Understand the professional responsibilities of the pharmacists.
- c) Provide the intended services.

Course duration:

Learning

40 hours of learning by blending method.

Blended teaching includes didactic and onsite learning.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time of Final Examination.

Detailed syllabus and lecture wise teaching schedules

- 1. Hospital Pharmacy Stores Management - 04 hours** Stores Management, Drug Purchase and Procurement, Inventory Control and GPP. Management of Material and Finance.
- 2. Drug Dispensing and Drug Distribution - 8 hours** Drug distribution – various methods, individual order method, Floor Stock Method, Unit Dose Drug Distribution Method, Drug basket method, Distribution to ICCU/ICU/Emergency wards, Automated drug dispensing systems and devices , Distribution of Narcotic and Psychotropic substances , GPP associated with all these.
- 3. Central Sterile Supply Services - 2 hours**

4. Prescription and prescription handling - 5 hours

- a. Definition, Parts of prescriptions, good prescribing practices, legality of prescriptions, identification of drug related problems in prescriptions.
- b. Prescription handling, labeling of dispensed medications (Main label, Ancillary label, pictograms), Medication usage instructions.
- c. Good dispensing practices
- d. Drug Interactions (Drug-Drug, Drug-Food, Drug-Lab investigations) – types, interpretation and detection, prevention, Practice on market prescriptions, Use of drug interaction software's.
- e. PPIs – (Patient Package Insert) - Basic concept, Importance and beneficial use of PPIs. Scenario in India and other countries.

5. Pharmaceutical Care - 02 hours

Definition, principles and procedures of pharmaceutical care

6. Patient Counseling - 04 hours

Definition, various stages of patient counseling, barriers in counseling and strategies to overcome barriers in patient counseling. Patient information leaflets- definition, layout and design of PILs.

7. Health Screening Services - 04 hours

Definition, scope, and uses of health screening services, procedures involved in screening blood pressure, capillary blood glucose, body mass index

8. Interpretation of laboratory data - 10 hours

- a) Haematological, Liver function, Renal function, thyroid function tests
- b) Tests associated with cardiac disorders
- c) Fluid and electrolyte balance
- d) Microbiological culture sensitivity tests
- e) Pulmonary Function Tests

books and references

suggested topics for assignments

Applied Pharmaceutics Scope

This course is designed to impart a fundamental knowledge on different dosage forms and pharmacokinetic changes in the body. It helps the student to understand the basic concepts regarding, absorption, distribution, metabolism and excretion.

Objectives

Upon completion of the course, the student shall be able to—

- a) Understand the formulation principles of various dosage forms
- b) Understand the basic principles of stability, storage and administration of various dosage forms
- c) Learn about novel drug delivery systems
- d) Understand various pharmacokinetic pathways and optimize the drug therapy.
- e) Understand Pro Drugs concept.

Course duration:**Learning**

40 hours of learning by blended teaching. Blending teaching includes didactic and onsite learning.

Assignments

Each student should complete **two assignments** covering Pharmaceutical Dosage forms and Pharmacokinetic concepts

Text Books

- a. Cooper and Gunns Dispensing for pharmacy students.
- b. A text book Professional Pharmacy by N. K. Jain and S. N. Sharma.
- c. D.M. Brahmankar and Sunil B Jaiswal. Text Book of Biopharmaceutics and Pharmacokinetics – A treatise. Vallabh Prakashan. Delhi.

Reference Books

- a) Introduction to Pharmaceutical dosage forms by Howard C. Ansel.
- b) Remington's Pharmaceutical Sciences

Lecture wise program and detailed syllabus

1. Introduction to Pharmaceutical Dosage Forms - **1 hr**
2. Basics of GMP, GLP, QA, QC - **1 hr**
3. Study the following about all dosage forms : - **15 hrs**
 - a. Need, advantage, disadvantages
 - b. Brief of various ingredients used and need for these, basic properties of actives. Basic overview of manufacturing without going into details.
 - c. Storage, packaging requirements
 - d. Possible stability and defects issues
 - e. Proper use, special precautions while using, instructions to patients
 - f. Bioavailability/biopharmaceutics aspects
4. Introduction to Novel drug delivery systems, instructions to be given to patients – Transdermal, infusion pumps, genetically engineered medicines, etc. - **6 hrs**
5. Introduction to Bio-Pharmaceutics - **1 hr**
6. Absorption of drugs - **3 hrs**
 - a) Introduction to absorption, structure and physiology of cell membrane
 - b) Factors affecting drug absorption, Absorption of drugs from extra vascular routes.
7. Distribution of Drugs - **2 hrs**
 - a) Tissue permeability of drugs, Physiological barriers to drug distribution.
 - b) Factors affecting drug distribution.
 - c) Volume of drug distribution, Drug protein, drug tissue binding.
8. Biotransformation of drugs - **3 hrs**
 - a) Drug metabolizing organs and Enzymes

- b) Phase I reactions, Phase II reactions
 - c) Factors affecting biotransformation of the drugs
- 9. Excretion of drugs - 1 hour**
- Renal excretion of drugs, Factors affecting the renal filtration, Non renal routes of drug excretion
- 10. Prodrugs - 1 hour**
- a) Definition and applications of prodrugs
- 11. Bioavailability and Bioequivalence - 4 hours**
- a) Definition of bioavailability and bioequivalence
 - b) Factors affecting bioavailability.
 - c) Importance of BA, BE, BA Classification system, NTI drugs, care to be taken in prescribing and dispensing of such drugs

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination

Social Pharmacy – I

Scope:

Practicing pharmacists have opportunity to provide various patient care services to improve the patient's health in the society. By monitoring the health of the individuals, providing them education about health, precautions, and pharmacists can improve their professional image.

Objectives:

Upon completion of the course, the student will be able to

- a) Understand the social responsibility of the pharmacists in the society
- b) Understand the health policies
- c) Provide health care services to patients.

Course duration:

Learning

40 hours of learning by blending method. Blending method includes didactic and onsite learning.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts

Detailed syllabus and topics

1. Introduction to Social Pharmacy –

- a) Definition and Scope - Introduction to Social Pharmacy as a discipline and its various concepts. Sociological Understanding of Health and Illness, Role of Pharmacist in Public Health - **1hr**
- b) WHO Definition of health – various dimensions of health - **1 hr**

- c) Introduction and broad overview of health systems, infrastructure, and functioning in India and other countries – both in Public and private sector. National health programmes in India – brief study of these and the role of pharmacist in each of these. - **5 hrs**
- 2. Drugs, Industry & Policies - 7 hrs**
- Drugs and developed countries, developing countries, GATT, patents, Patents Act.
 - Pharmaceutical Industry and its activities, Classification systems of drugs, Social marketing – brief study of organizations and functioning like Medicines Sans Frontiers
 - Concept of RUM, WHO Essential Medicines, Irrational medicine use and its associated problems, etc., Evidence based medicine, STGs (Standard Treatment Guidelines)
 - National Drug Policy, National Health Policy, Pharmacy & Drug Ethics –
- 3. Pharmacoeconomics** – Definition, types of pharmacoeconomic models, consumption of drugs, pharmaceutical pricing and reimbursement, Health Insurance - **3 hrs**
- 4. Pharmacoepidemiology** – Definition, scope, advantages and disadvantages. - **3 hrs**
- 5. Health Promotion and Health education - 20 hrs**
- Epidemiology of Communicable Diseases : Causative agents and Clinical presentations and Role of Pharmacist in prevention of communicable diseases :
 - Respiratory infections – chickenpox, measles, rubella, mumps, influenza (including Avian-Flu, H1N1), diphtheria, whooping cough, meningococcal meningitis, acute respiratory infections, tuberculosis
 - Intestinal infections – poliomyelitis, viral hepatitis, cholera, acute diarrhoeal diseases, typhoid, food poisoning, amebiasis, worm infestations
 - Arthropod-borne infections - dengue, malaria, filariasis and, chikungunya
 - Zoonoses – rabies, yellow fever, Japanese encephalitis, plague, human salmonellosis, rickettsial diseases, taeniasis, hydatid disease, leishmaniasis
 - Surface infections – trachoma, tetanus, leprosy, STDs, HIV/AIDS
 - Emerging and reemerging infectious diseases.

Text books (Theory)

- Social Pharmacy – Innovation and development ed. Geoff Harding, Sarah Nettleton and Kevin Taylor. The Pharmaceutical Press.*
- Text Book of Community Pharmacy Practice. RPSGB Publication**

2nd Year

Pathophysiology and Pharmacotherapeutics III

Scope:

Practicing pharmacists will have opportunity to review the case notes or prescriptions in their practice setting and able to identify and resolve the drug related problems. This will ensure the improved patient care and decreases the unnecessary health care expenditure.

Objectives:

Upon completion of the course, the student will be able to

- (a) Understand the anatomy and physiology of the respective system
- (b) Understand the disease process
- (c) Know the signs and symptoms of the disease.
- (d) Appreciate the various therapeutic regimens with their advantages and disadvantages

Course duration:

Learning

40 hours of learning by blended teaching. Blended teaching includes didactic and onsite learning.

Case Presentations

During the course each student should present **5 cases** covering the diseases prescribed in the syllabus.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination.

Detailed syllabus and Lecture wise schedules

1. Infectious diseases - 25 Hours

- (a) Guidelines for the rational use of antibiotics and surgical Prophylaxis.
- (b) Pathophysiology and Pharmacotherapeutics of Tuberculosis, Meningitis, Respiratory tract infections, Gastroenteritis, Endocarditis, Septicemia, Urinary tract infections, Protozoal infection- Malaria, HIV & Opportunistic infections, Fungal infections, Viral infections, Gonorrhoea and Syphilis

2 Musculoskeletal disorders - 08 Hrs

- (a) Basics of Anatomy and physiology of musculoskeletal system.
- (b) Pathophysiology and Pharmacotherapeutics of Rheumatoid arthritis, Osteoarthritis, Gout, Spondylitis, Systemic Lupus Erythematosus

3 Renal system - 07 Hrs

- a) Basics of anatomy and physiology of Renal system
- b) Pathophysiology and pharmacotherapeutics of Acute Renal Failure, Chronic Renal Failure, Renal Dialysis, Drug induced renal disorders

Books and references

Suggested topics for assignment.

Pathophysiology and Pharmacotherapeutics IV :

Scope:

Practicing pharmacists will have opportunity to review the case notes or prescriptions in their practice setting and able to identify and resolve the drug related problems. This will ensure the improved patient care and decreases the unnecessary health care expenditure.

Objectives:

Upon completion of the course, the student will be able to :

- a) Understand the anatomy and physiology of the respective system
- b) Understand the disease process
- c) Know the signs and symptoms of the disease.
- d) Appreciate the various therapeutic regimens with their advantages and disadvantages

Course duration:

Learning

40 hours of learning by blended teaching. Blended teaching includes didactic and onsite learning.

Case Presentations

During the course each student should present **5 cases** covering the diseases prescribed in the syllabus.

Assignments

Each student should complete **two assignments** covering therapeutics and pharmacy practice concepts and will be evaluated at the time Final Examination.

Detailed Syllabus and Lecture Wise Program

1. Oncology: - 15 Hrs

Basic principles of Cancer therapy, General introduction to cancer chemotherapeutic agents, Chemotherapy of breast cancer, leukemia.

Management of chemotherapy induced nausea and emesis

2. Dermatology: - 7 Hrs

(a) Pathophysiology and Pharmacotherapeutics of Psoriasis, Scabies, Eczema, Impetigo
