

#### SANDIP INSTITUTE OF PHARMACEUTICAL SCIENCES,

At Post- Mahiravani, Tal/Dist. Nashik-422213, Maharashtra, India

Web: www.sandipfoundation.org E-mail: info@sandipfoundation.org

Phone: (02594) 222591/92/93/94/95, Fax: (02594) 222555

# Add on/ Value added certificate courses offer by Sandip Institute of Pharmaceutical Sciences 2022-23

- 1. Scientific Content Writing
- 2. Good Laboratory Practices
- 3. Hands On UV-Vis, IR, HPLC & GC
- 4. Human Values & Professional Ethics
- 5. Intellectual Property Rights
- 6. Medical Software Learning
- 7. Preclinical Studies
- 8. Pre-formulation Studies
- 9. Regulatory Affairs
- 10. Medical Coding/ Medical Writing/ Pharmacovigilance:

#### SANDIP INSTITUTE OF PHARMACEUTICAL SCIENCES,

At Post- Mahiravani, Tal/Dist. Nashik-422213, Maharashtra, India

Web: www.sandipfoundation.org E-mail: info@sandipfoundation.org

Phone: (02594) 222591/92/93/94/95, Fax: (02594) 222555

### **Scientific Content writing**

Sr. No	Content	Hours
1	Basics of literature survey: Introduction to various search engine, how to use the key words for the search, use of search engine like google scholar, highwire Stanford, PubMed central, Medline, google patent, shodhganga etc	05
2	Effective scientific writing- Data retrieving from the research article, patent and review article, sorting of data in simple formats, Data analysis and used of data, how to structure the hypothesis, Objective and goal of research.	07
3	Writing skills- How to start the writing of scientific literature, difference between the review and research article writing, introduction to various types parts of thesis, the content required for the effective writing, effective way of presentation of data in charts, diagram and illustrations.	06
4	Writing skill- Writing should be effective, comprehensive and simplified to address the exact massage from the research, Introduction to various tools to assist your writing work like End note. Introduction to citation, types of journals and publishing house.	06

	selection of journal, impact factors, h index, following author guidelines, on line submission, proof reading of a manuscript, understanding the symbols, reviewing of a manuscript, making corrections and answering reviewers query, galley proof reading	
5	Ethics in Publishing work: Introduction to plagiarism, what is self-plagiarism, how to avoid plagiarism, introduction to the various tools for plagiarism checking like plagiarism checker, Urkund, Turnitin etc	06

#### SANDIP INSTITUTE OF PHARMACEUTICAL SCIENCES,

At Post- Mahiravani, Tal/Dist. Nashik-422213, Maharashtra, India

 $\textbf{Web:} \ \underline{www.sandip foundation.org} \ \textbf{E-mail:} \ \underline{info@sandip foundation.org}$ 

Phone: (02594) 222591/92/93/94/95, Fax: (02594) 222555

## **Good Laboratory Practices**

Sr. No	Content	Hours
1	Introduction to GLP: Introduction to GLP, History, Scope, Principle,	12
	Fundamental points of GLP (Resources	
	Characterization, Rules, Results, Quality assurance),	
	WHO guidelines on GLP and GMP.	
2	Laboratory rules and SOP: General Rules/Protocols for Lab Safety measures,	06
	Organization and Personnel, Facilities, Equipment,	
	Precaution and Safety in handling of chemicals and	
	equipment's, Laboratory tools, Glassware and	
	instruments, Definition, preparation of Basic SOPs for	
	instrument handling and Maintenance.	
	Quality assurances and quality control:	
3	Introduction, concept and scopes of Quality Control and	06
	Quality Assurance, Introduction of GMP and cGMP,	
	GCP, Overview of ICH Guidelines - QSEM, with	
	special emphasis on Q- series guidelines.	
4	Record Keeping and Protocol: Levels of Laboratories, Log Book Maintenance, Keeping data records, GLP documentations, protocol for conduct of non-clinical testing, control on animal house, documentation, CPCSEA guidelines, report preparation and documentation of Laboratory work, Calibration records, Validation of methods, documentation of results, Audits & Audit reports.	06

#### SANDIP INSTITUTE OF PHARMACEUTICAL SCIENCES,

At Post- Mahiravani, Tal/Dist. Nashik-422213, Maharashtra, India

### Hands on UV-Vis, IR, HPLC & GC

Unit	Topics	Hrs.
I	Infrared Spectroscopy:	04
	1. Basic principle and detailed instrumentation of IR.	
	2. Types of IR: FTIR, ATR	
	3. Sample preparation techniques for solids & liquids.	
	4. Compound characterization by IR spectrum.	
	5. Calibration.	
II	Ultraviolet-Visible Spectroscopy	07
	1. Basic principle and detailed instrumentation of UV- Visible	
	Spectrophotometer	
	2. Qualitative and quantitative application.	
	3. Sample analysis.	
	4. Analytical method development and validation.	
	5. Calibration.	
III	High Performance Liquid Chromatography	07
	1. Basic principle and detailed instrumentation of HPLC.	
	2. Sample analysis.	
	3. Analytical method development and validation.	
	4. Qualitative and quantitative application.	
	5. Calibration.	
IV	Gas Chromatography	07
	1. Basic principle and detailed instrumentation of GC.	
	2. Sample analysis by using liquid autosampler and head space	
	sampler.	
	3. Analytical method development and validation.	
	4. Qualitative and quantitative application.	
	5. Calibration.

### **Human Values & Professional Ethics**

Chapter	Topic	Hours
1	Introduction to Human Values and Ethics	2
	Definition and scope of human values and professional	
	ethics	
	Importance of ethical behavior in the pharmacy profession	
	Ethical codes and guidelines for pharmacy practice	
2	Ethical Theories and Frameworks	4
	Utilitarianism	
	<ul> <li>Deontology</li> </ul>	
	Virtue ethics	
	Rights-based ethics	
	Ethical relativism	
3	Ethical Decision-Making Models	4
	The five-step ethical decision-making model	
	<ul> <li>Applying ethical decision-making models to</li> </ul>	
	pharmacy scenarios	
	<ul> <li>Consideration of stakeholders and their interests</li> </ul>	
4	Ethical Issues in Pharmacy Practice	6
	Confidentiality and patient privacy	
	Informed consent and patient autonomy	
	Conflict of interest	
	<ul> <li>Drug pricing and access to medication</li> </ul>	
	Pharmaceutical industry influence	
5	Professional Values and Virtues	4
	Integrity and honesty	
	Empathy and compassion	
	Professional competence and continuous learning	
	Respect for diversity and cultural competence	
	Advocacy for patient welfare	

6	Ethical Dilemmas in Pharmacy Practice	6
	<ul> <li>Case studies and group discussions on real-life</li> </ul>	
	ethical dilemmas	
	<ul> <li>Ethical analysis and decision-making exercises</li> </ul>	
	<ul> <li>Reflection on personal values and biases</li> </ul>	
7	Legal and Regulatory Frameworks	4
	<ul> <li>Laws and regulations governing pharmacy practice</li> </ul>	
	<ul> <li>Professional liability and accountability</li> </ul>	
	<ul> <li>Role of regulatory bodies and professional</li> </ul>	
	organizations	
8	Ethical Considerations in Interprofessional	2
	Collaboration	
	<ul> <li>Effective communication and teamwork</li> </ul>	
	<ul> <li>Resolving ethical conflicts within healthcare teams</li> </ul>	
	<ul> <li>Respectful and ethical interactions with other</li> </ul>	
	healthcare professionals

## **Intellectual Property Rights**

Units	Syllabus Content	Hours
1	Introduction To Ipr:	09
	Meaning of property, Origin, Nature, Meaning of	
	Intellectual Property Rights – 2 hours	
	Introduction to TRIPS and WTO. – 2 hours	
	Kinds of Intellectual property rights—Copy Right, Patent,	
	Trade Mark, Trade	
	Secret and trade dress, Design, Layout Design, Geographical	
	Indication, Plant	
	Varieties and Traditional Knowledge. – 5 hours	
2	Patent Rights and Copy Rights—	12
	Origin, Meaning of Patent, Types,	
	Inventions which are not patentable, Registration Procedure,	
	Rights and Duties of	
	Patentee, Assignment and licence, Restoration of lapsed	
	Patents, Surrender and  Payagetian of Patents, Infringement, Remedies & Panelties	
	Revocation of Patents, Infringement, Remedies & Penalties. – 6 hours	
	COPY RIGHT—Origin, Definition & Types of Copy Right,	
	Registration	
	procedure, Assignment & licence, Terms of Copy Right,	
	Piracy, Infringement,	
	Remedies, Copy rights with special reference to software	
3	Trade Marks—	6
	Origin, Meaning & Nature of Trade Marks, Types,	
	Registration of Trade Marks, Infringement & Remedies,	
	Offences relating to	
	Trade Marks, Passing Off, Penalties. – 4 hours	
	Domain Names on cyber space. – 2 hours	
4	Design-	6
	Meaning, Definition, Object, Registration of Design,	
	Cancellation of	
	Registration, International convention on design, functions of	

	Design. Semiconductor Integrated circuits and layout design Act-2000.	
5	Basic Tenents of Information Technology Act-2000 –	6
	IT Act - Introduction	
	E-Commerce and legal provisions	
	E- Governance and legal provisions	
	Digital signature and Electronic Signature.	
	Cybercrimes

### **Medical Software Learning**

Chapter	Topic	Hours
1	<ul> <li>Introduction to Medical Software (3 hours)</li> <li>Overview of pharmacy software systems and their role in pharmacy operations.</li> <li>Introduction to pharmacy management systems and their benefits.</li> <li>Discussion on inventory control software for pharmacies.</li> <li>Ethical considerations and regulatory requirements in pharmacy software usage.</li> </ul>	3
2	<ul> <li>Pharmacy Management Systems</li> <li>Understanding the functionalities and components of pharmacy management systems.</li> <li>Navigating a pharmacy management system.</li> <li>Inventory management and control using pharmacy software.</li> <li>Prescription processing and medication dispensing.</li> <li>Reporting and analytics in pharmacy management software</li> </ul>	6
3	<ul> <li>Prescription Processing and Medication         Therapy Management     </li> <li>Workflow and prescription processing using pharmacy software.</li> <li>Medication therapy management using pharmacy software tools.</li> <li>Drug interactions, allergies, and contraindications alerts in pharmacy software.</li> <li>Medication reconciliation and patient counselling.</li> </ul>	8
4	<ul> <li>Inventory Control and Ordering</li> <li>Managing pharmacy inventory using software tools.</li> </ul>	4

	Setting reorder points and managing stock levels.	
	<ul> <li>Ordering and receiving medications through</li> </ul>	
	pharmacy software.	
	Utilizing barcodes and scanning technologies for	
	inventory control.	
5	Billing and Claims Processing	5
	Pharmacy billing processes and claims	
	management.	
	Third-party billing and reimbursement using	
	pharmacy software.	
	Managing insurance information and prior	
	authorizations.	
	Handling rejected claims and resubmission	
	processes.	
6	Data Security and Privacy	4
	Ensuring data security and privacy in pharmacy	
	software usage.	
	HIPAA compliance and patient data protection.	
	Best practices for data backup and disaster	
	recovery.	
	<ul> <li>Training pharmacy staff on data security and</li> </ul>	
	privacy.	
	privacy.

### **Preclinical Studies**

Chapter	Topics	Credit hours
1	Introduction to preclinical studies and types of Preclinical studies  • Importance of preclinical studies	4
	<ul><li>In-Vitro</li><li>In vivo</li></ul>	
2	Importance of preclinical studies for drug discovery	4
3	<ul><li>Ethical bodies for animal studies</li><li>CPCSEA and approval</li></ul>	4
4	Introduction to Different types of Laboratory animals and importance  • Rats • Mice • Guinea Pigs • Rabbits	2
5	<ul> <li>In vitro studies</li> <li>Introduction to various in vitro studies like antioxidant, anti-inflammatory etc.,</li> <li>Cell culture techniques</li> <li>In vitro assay procedures</li> </ul>	6
6	Toxicity studies and their use in pre clinical services  OECD guidelines  Acute oral toxicity  Sub acute toxicity  Sub chronic toxicity  Chronic toxicity  Carcinogenicity etc.	6
7	Euthanasia techniques of animals after study as per CPCSEA	2
8	Preparation of study protocols according to standard guidelines	2

### **Pre-formulation Studies**

Unit	Content	Allotted
		Hours
Unit I	The Scope of Pre-formulation Studies	5
	Introduction, Pre-formulation Testing Criteria,	
	Regulatory Requirements, Testing Systems, Solid-	
	State Characterization	
	Transport Across Biological Membranes	
Unit II	Dissociation, Partitioning, and Solubility	5
	Introduction, The Ionization Principle, Quantitative	
	Structure – Activity Relationships, Partitioning,	
	Measurement Strategies	
Unit III	Release, Dissolution, and Permeation	5
	Introduction, Release, Assay Systems, The	
	Biopharmaceutics Drug Classification Systems	
Unit IV	Solid-State Properties	5
	Introduction, Crystal Morphology, Polymorphism,	
	High-Throughput Crystal Screening, Solvates,	
	Hydrates, Amorphous Forms, Hygroscopicity,	
	Solubility, Study Methods	
Unit V	Dosage Form Considerations in Preformulation	5
	Introduction, Solid Dosage Form Considerations,	
	Solution Formulations, Emulsion Formulations,	
	Freeze-Dried Formulations, Suspensions, Topical,	
	Pulmonary Delivery, General Compatibility	

Unit VI	Chemical Drug Substance Characterization	5
	Introduction, Scheme of Characterization, Impurities,	
	Good Manufacturing Practice	
Unit VII	Characterization of Biopharmaceutical Drugs	5
	Introduction, Preformulation Studies, Packaging and	
	Materials, Physio-Chemical Characterization Tests,	
	Design of Preformulation Studies

Phone: (02594) 222591/92/93/94/95, Fax: (02594) 222555

### **Regulatory Affairs**

Units	Syllabus	Hours
1	<ul> <li>Introduction to Regulatory Affairs</li> <li>Definition and scope of regulatory affairs</li> <li>Role of regulatory affairs in the pharmaceutical industry</li> <li>Global regulatory guidelines and key regulatory authorities</li> </ul>	2 Hours
2	<ul> <li>Regulatory Guidelines and Standards</li> <li>Overview of international regulatory guidelines and standards</li> <li>Good Laboratory Practices (GLP)</li> <li>Good Clinical Practices (GCP)</li> <li>Good Manufacturing Practices (GMP)</li> <li>Good Pharmacovigilance Practices (GVP)</li> </ul>	2 Hours
3	<ul> <li>Drug Development Process</li> <li>Preclinical testing and data requirements</li> <li>Phases of clinical trials and regulatory considerations</li> <li>Investigational New Drug (IND) application</li> <li>New Drug Application (NDA) and Biologic License Application (BLA)</li> </ul>	4 Hours
4	<ul> <li>Regulatory Submissions and Interactions</li> <li>Electronic Common Technical Document (eCTD) format</li> <li>Preparation and submission of regulatory dossiers</li> <li>Regulatory meetings and communications with regulatory authorities</li> </ul>	4 hours

	Post-submission requirements and updates	
5	□Pharmacovigilance and Post-Marketing Surveillance	4 Hour
	<ul> <li>Adverse drug event reporting and monitoring</li> <li>Post-marketing safety studies</li> <li>Risk management plans</li> <li>Labeling and package inserts</li> </ul>	
6	□ Regulatory Compliance and Inspections	4 hours
	<ul> <li>Regulatory inspections and audits</li> <li>Corrective and preventive actions (CAPA)</li> <li>Quality management systems</li> <li>Compliance with regulatory requirements</li> </ul>	
7	□Global Regulatory Harmonization	2 hours
	<ul> <li>International Conference on Harmonisation (ICH) guidelines</li> <li>Mutual Recognition Agreements (MRAs)</li> <li>Harmonization initiatives and their impact on regulatory affairs</li> </ul>	
8.	□ Regulatory Affairs in Specialized Areas	4 hours
	<ul> <li>Regulatory considerations for generics and biosimilars</li> <li>Medical devices and diagnostics regulations</li> <li>Nutraceuticals and dietary supplements regulations</li> <li>Regulatory affairs in emerging technologies (e.g., gene therapies, cell-based products)</li> </ul>	
9.	□ Current Trends and Future Developments	4 hours
	<ul> <li>Regulatory challenges and emerging issues</li> <li>Digital health technologies and regulatory implications</li> <li>Regulatory affairs careers and professional development opportunities</li> </ul>

### Medical Coding/ Medical Writing/ Pharmacovigilance

Units	Syllabus	Hours
1	Medical Coding:	5 Hours
	(CPT, ICD 9-CM, ICD -10 CM, DSM, CDT, APC, and HCPCS)	
	CPT – Current Procedural Terminology	
	ICD – International Classification of Diseases	
	DSM- Diagnostic and Statistical manual CDT – Code on Dental Procedures and Nomenclature.	
	APC- Ambulatory Payment Categories	
	HCPCS- Healthcare Common Procedure Coding System	
2	Health Insurance Policies	5 Hours
	Health insurance Portability and Accountability Act	
	Evaluating medical services, procedures, and guidelines Documenting medical records	
	Medical Ethics	
	Anaesthesia	
3	Medical Writing:	5 Hours
	1- Introduction in Healthcare Communication and	
	<ul><li>Medical Writing:</li><li>Understanding the term 'Medical Writing'</li></ul>	
	Types of medical writing	
	Qualities required in a medical writer	
	Target audience	
	Employers and clients	
	2- The Writing Process	
	<ul> <li>The four steps in the writing process</li> </ul>	
	Prewriting strategies  Descriptions	
	Drafting	

	D. C.C.	1
	Revising  Refining	
	Refining	
	3- Online and Offline Writing Skills for Media	
	Reader behaviors	
	<ul> <li>Differences between web and print media</li> </ul>	
	Effective web writing techniques	
	Lifective web writing techniques	
4	□ Regulatory Submissions and Interactions	5 hours
	<ul> <li>Electronic Common Technical Document (eCTD)</li> </ul>	
	format	
	<ul> <li>Preparation and submission of regulatory dossiers</li> </ul>	
	<ul> <li>Regulatory meetings and communications with</li> </ul>	
	regulatory authorities	
	<ul> <li>Post-submission requirements and updates</li> </ul>	
5	☐ Basic Rules of Writing	5 Hour
	Basic structure of a write-up	
	<ul> <li>Writing the basic components</li> </ul>	
	Grammar basics	
	<ul> <li>General rules of writing</li> </ul>	
6	Consumer writing	5 hours
	General rules for consumer writing	
	Types of consumer writing	
	Consumer news	
	Consumer reviews	
	• Blogs	
	<ul> <li>Newsletters</li> </ul>	
	Fact sheets	
	Care guides	
7	Pharmacovigilance:	5 hours
	1. Introduction to Pharmacovigilance	J HOUIS
	<ul> <li>History and development of</li> </ul>	
	Pharmacovigilance	
	<ul> <li>Importance of safety monitoring of</li> </ul>	
	Medicine	
	WHO international drug monitoring	
	programme	

	<ul> <li>Pharmacovigilance Program of India(PvPI)</li> </ul>	
	2. Basic terminologies used in pharmacovigilance	
	<ul> <li>Terminologies of adverse medication related</li> </ul>	
	events	
	<ul> <li>Regulatory terminologies</li> </ul>	
	3. Drug dictionaries and coding in	
	pharmacovigilance	
	WHO adverse reaction terminologies	
	<ul> <li>Med DRA and Standardised MedDRA</li> </ul>	
	queries	
	WHO drug dictionary	
	5	
	<ul> <li>Eudravigilance medicinal product dictionary</li> </ul>	
8.	4. Information resources in pharmacovigilance	5 hours
	Basic drug information resources	
	<ul> <li>Specialized resources for ADRs</li> </ul>	
	5. Establishing pharmacovigilance programme	
	Establishing in a hospital	
	<ul> <li>Establishment &amp; operation of drug safety</li> </ul>	
	department in industry	
	-	
	Contract Research Organisations(CROs)  Catablishing a sectional research organisations	
	Establishing a national programme	
	6. Pharmacovigilance methods	
	<ul> <li>Passive surveillance–Spontaneous reports</li> </ul>	
	and case series	
	<ul> <li>Stimulated reporting</li> </ul>	
	<ul> <li>Active surveillance-Sentinel sites, drug</li> </ul>	
	event monitoring and registries	
	<ul> <li>Comparative observational studies-Cross</li> </ul>	
	sectional study, case control study and	
	cohort study	
	Targeted clinical investigations
