## Report

### **One day Training Programme on employability skills in association with Global Talent Track (GTT)**

Title of event : - Training Programme on employability skills

Date and Time : - 07.12.2023 (2.00 pm to 5.00 pm)

Event Organized By : - Dr. Swati G. Talele, Dr Pankaj C. Bhamare

Trainer's name : - Mr. Sachin Jadhav

#### **Details of event**

The Sandip Institute of Pharmaceutical Sciences and School of pharmaceutical sciences has conducted one day Training Programme on employability skills in association with Global Talent Track (GTT) on 07<sup>th</sup> December 2023 for our pharmacy students.

The program was inaugurated with a formal felicitation, followed by an opening speech by the esteemed Principal Dr. L. B. Borse, setting the tone for the event and emphasizing the significance of employability skills.

The guest speaker, Mr. Sachin Jadhav is a seasoned professional with extensive experience in the pharmaceutical sector, provided valuable insights into the industry's expectations and the employability skills required for a successful career. Mr Sachin Jadhav delivered an inspiring talk on self-awareness, interview FAQs, positive attitude, values, group discussion and motivation, offering valuable insights and motivation to the students.

Mr. Sachin Jadhav led a stimulating discussion on "challenges and opportunities in the professional world, teamwork and grooming" encouraging students to contemplate the choices and challenges they may encounter in their professional lives. The engaging discussion provided a platform for students to express their views and learn from one another.

The program promises to be valuable learning experience, enhancing the skills and knowledge of the participants.

## Key Topics Covered:

**Communication Skills:** Emphasis was placed on effective communication, both verbal and written, as a fundamental skill in pharmacy practice. Practical tips on conveying complex information to diverse audiences were shared.

**Teamwork and Collaboration:** The importance of collaboration within a multidisciplinary healthcare team was discussed. Case studies and real-world examples illustrated the significance of working cohesively in a profession.

**Adaptability and Flexibility:** Given the dynamic nature of the pharmaceutical industry, the lecture highlighted the need for adaptability to technological advancements, changes in regulations, and evolving healthcare landscapes.

**Problem Solving and Critical Thinking:** Guest speaker engaged students in interactive problem-solving activities, encouraging them to think critically and analytically. This aimed to develop their ability to address challenges that may arise.

**Professional Ethics:** Ethical considerations in pharmacy practice were explored, emphasizing the importance of maintaining integrity, confidentiality, and ethical standards in interactions with patients, colleagues, and regulatory bodies.

**Interactive Session:** The lecture incorporated interactive elements, such as Q&A sessions and group discussions, allowing students to actively participate and seek clarification on specific topics. This engagement facilitated a deeper understanding of the practical application of employability skills.

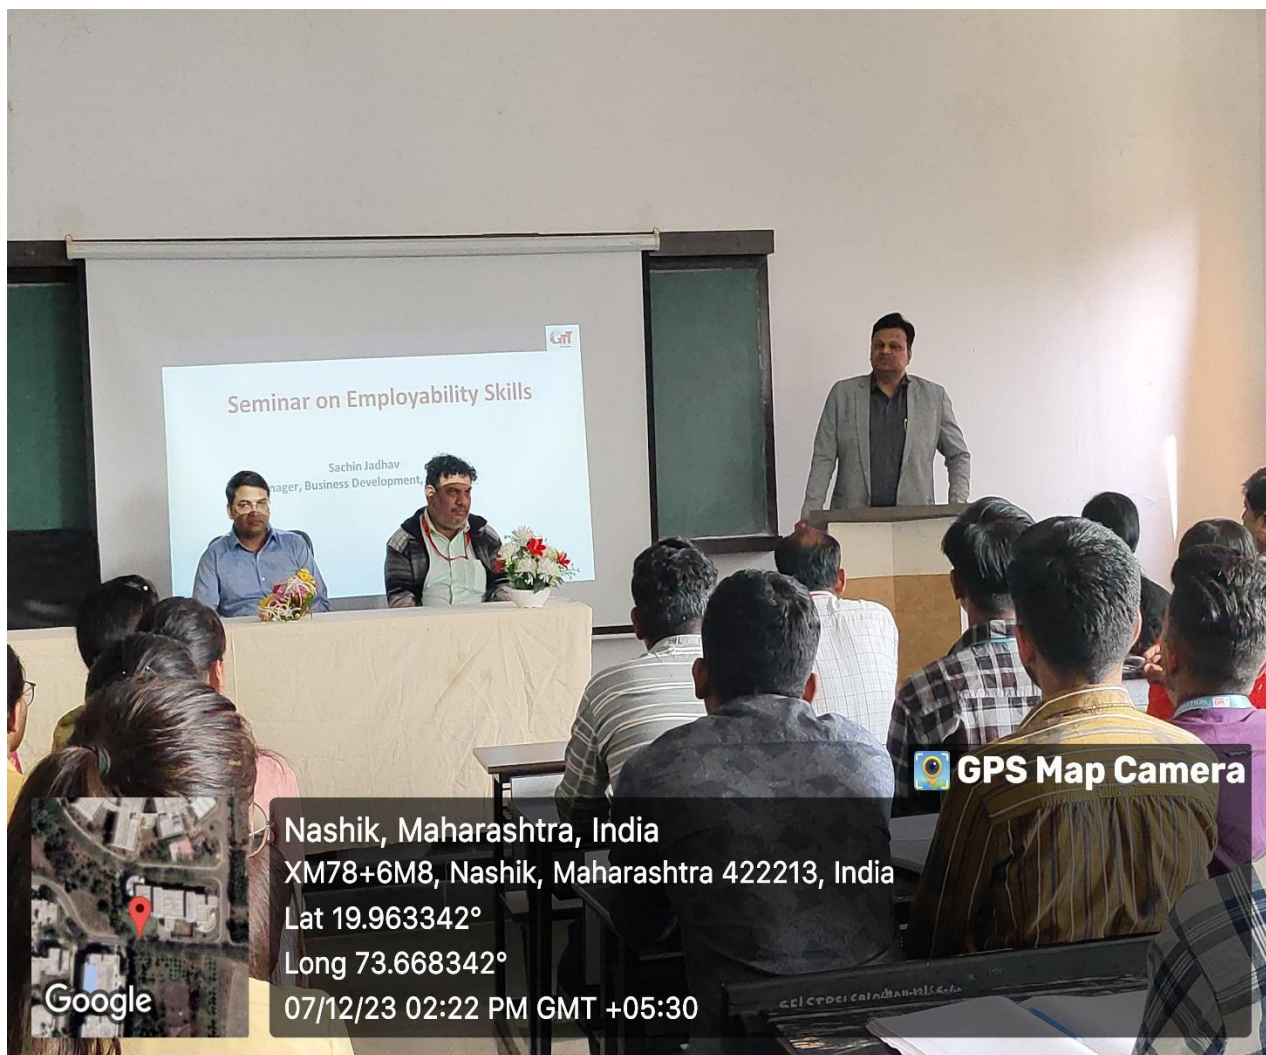

**Student Feedback:** Post-lecture feedback from students was overwhelmingly positive. Many expressed gratitude for the practical insights provided and noted that the session enhanced their awareness of the non-technical skills crucial for success.

## Conclusion:

The training session on employability skills proved to be a valuable addition, offering students a well-rounded perspective on the competencies needed for a successful and fulfilling career in the pharmaceutical industry. The session aligns with our commitment to providing holistic education and preparing students for the challenges and opportunities in the profession. This interactive program has been concluded thereafter. We look forward to the upcoming future alliance with Global Talent Track (GTT) with respect to employability skill sessions for enlightening journey of our pharmacy students.
