### **The Process of Feedback**

An increasing amount of institute performance analysis is done using effective learning outcomes as a basis. Feedback Mechanism is necessary to determine if the institution is delivering high-quality education and reforming good performance. As a result, the institute implements policy to provide feedback forms so that various stakeholders can assess performance in various contexts.

#### **1. Purpose and scope**

- To stay up to date with the aspirations and expectations of the institute's stakeholders and students.
- All products, services, facilities, and methods have room for ongoing improvement.
- By promptly gathering, evaluating, and disseminating student feedback on instruction, learning, and evaluation, teachers can audit and improve several elements of their students' learning experiences.
- Giving stakeholders and students the opportunity to actively contribute to the ongoing enhancement of study programs through timely feedback collection.

#### **2. Responsibilities**

The Internal Quality Assurance Cell (IQAC) has developed a robust feedback mechanism and an analytical framework. Feedback from students and stakeholders about academic and other related programs offered by the institute will be gathered, analyze, and reported by the IQAC Director in collaboration with other faculty members from various departments.

#### **3. Stakeholders**

Stakeholders are any person/persons or organization that has associated with the institute. Stakeholders include, but are not limited to:

- Students
- Alumni
- Teaching staff members

#### **4. Feedback Mechanism**

For the appropriate stakeholders, IQAC will create organized feedback forms. The comments will

be gathered via offline and online means. IQAC will review feedback forms that have been filled out. Comments should be gathered under the following general heading:

Feedback from students	End of semester
Feedback from Alumni	Once/Twice in a year
Feedback from staff	Annually
Feedback from parents	Annually

All stakeholders will be asked for feedback on the curriculum in order to assess the effectiveness of the institute's current curriculum and infrastructure and to provide insightful recommendations on other areas pertaining to the teaching and learning processes.

Following analysis, the comments will be sent to the appropriate authorities for additional handling and action. The study of feedback will determine the action taken report.
