Event/Activity Report

| | |
|---|---|
| Name of the Department | Sandip Institute of Pharmaceutical Sciences |
| Title of the event | Awareness on Blockchain in Pharmaceuticals |
| Date of event organized | 16/07/2020 |
| Name of the coordinator of event | Dr Swati Talele |
| No. of Participants | 72 |
| Name of the expert/ Chief Guest of the event | Dr Anil R Choudary Alembic (PIndustry expert) |
| Objective of the event | <ul style="list-style-type: none"> • Introduction to Blockchain Technology. • Exploration of Blockchain in Pharmaceutical Supply Chain. • Discussion on Regulatory and Compliance Aspects. |
| Outcome of the event | <ul style="list-style-type: none"> • To significantly enhance the students' understanding of blockchain technology in pharmaceuticals, fostering a sense of curiosity and awareness about its potential applications in ensuring transparency and security within the industry. • Practical insights into the role of blockchain in the pharmaceutical supply chain, appreciating its potential to address challenges related to traceability and counterfeit drugs, thereby contributing to heightened patient safety. • The event left a lasting impact on the students, empowering them with knowledge about the regulatory and compliance aspects of blockchain implementation in pharmacy, enabling them to navigate the evolving landscape of technology in the pharmaceutical sector responsibly. |

Event/Activity Report

Sandip Institute of Pharmaceutical Sciences hosted an insightful guest lecture on "Awareness on Blockchain in Pharmaceuticals" featuring Dr. Anil R Choudary from Alembic Pharmaceuticals. The session aimed to provide students with a comprehensive understanding of the commercialization and prospective applications of blockchain in the pharmaceutical industry.

Key Highlights:

In-Depth Exploration of Blockchain Commercialization:

Dr. Anil R Choudary delivered an engaging presentation, offering an in-depth exploration of how blockchain technology is becoming commercialized in the pharmaceutical sector. Students gained valuable insights into the practical applications and advancements that blockchain brings to the industry.

Prospective Use of Blockchain in Pharmaceuticals:

The guest speaker shed light on the prospective use of blockchain in pharmaceuticals, emphasizing its role in ensuring transparency, security, and efficiency in various processes. Dr. Choudary provided real-world examples, illustrating the potential impact of blockchain on enhancing supply chain integrity and overall pharmaceutical operations.

Empowering Students with Awareness and Insights:

Dr. Anil R Choudary concluded the session by imparting words of wisdom, stressing the importance of pharmacy students staying informed about blockchain developments in the pharmaceutical sector. He provided guidance on overcoming challenges and adapting to the evolving landscape, empowering students with the knowledge to navigate the intersection of technology and pharmacy.

Student Impact and Feedback:

Increased Awareness of Blockchain Developments:

Students expressed an increased awareness of blockchain developments in pharmaceuticals, appreciating the practical insights provided by Dr. Anil R Choudary. The lecture inspired a deeper understanding of the potential applications and benefits of blockchain technology.

Practical Insights for Future Applications:

Attendees valued the practical insights shared by the guest speaker, particularly in understanding how blockchain can be applied in real-world pharmaceutical scenarios. Dr. Choudary's examples resonated with students, showcasing the transformative potential of blockchain in their future professional endeavors.

Guidance for Adapting to Industry Changes:

Dr. Anil R Choudary's guidance on overcoming challenges and adapting to industry changes left a lasting impact on the students. His concluding words motivated them to proactively seek knowledge about emerging technologies, ensuring they are well-prepared for the evolving landscape of pharmaceuticals.

Conclusion: The guest lecture by Dr. Anil R Choudary on "Awareness on Blockchain in Pharmaceuticals" was a resounding success, providing students with a holistic understanding of blockchain's commercialization and its prospective use in the pharmaceutical industry. The event not only enhanced awareness but also inspired a proactive mindset among pharmacy students, encouraging them to stay abreast of technological advancements that will shape their future roles in the pharmaceutical sector.
