

Event/Activity Report

Name of the Department	Sandip Institute of Pharmaceutical Sciences
Title of the event	Awareness on Digital Health Integration
Date & Day of event organized	23/05/2023
Name of the coordinator of event	Prof. Amit Gaikwad
No. of Participants	68
Name of the expert/ Chief Guest of the event	Dr. Keshao A. Mahale
Objective of the event	<ul style="list-style-type: none"> • Introduction to Digital Health Concepts. • Exploration of Digital Health Applications in Pharmacy Practice. • Understanding the Impact on Patient Engagement and Outcomes.
Outcome of the event	<ul style="list-style-type: none"> • Participants gained a heightened awareness of the diverse applications of digital health, understanding its potential role in transforming pharmacy practice and healthcare delivery. • The event empowered students with practical insights into the integration of digital health tools, enhancing their ability to leverage technology for improved patient care and medication management. • Attendees left the session equipped with a forward-thinking mindset, ready to navigate the evolving landscape of digital health integration in the pharmaceutical sector, contributing to more patient-centric and technologically advanced pharmacy practices.

Event/Activity Report

Introduction: Sandip Institute of Pharmaceutical Sciences organized a dynamic event focused on "Awareness on Digital Health Integration," featuring Dr. Keshao A. Mahale (Asst Professor KTHM college Nashik) as the esteemed guest speaker. The lecture aimed to provide final-year pharmacy students with comprehensive insights into current trends in digital health integration, fostering a forward-thinking mindset for their future professional endeavors.

Key Highlights:

1. In-Depth Exploration of Digital Health Concepts:

- Dr. Keshao A. Mahale initiated the session with an in-depth exploration of digital health concepts, covering a spectrum of technologies and innovations reshaping the healthcare landscape. Students gained a foundational understanding of how digital

health integration is becoming integral to modern pharmacy practice.

2. Practical Applications in Pharmacy Practice:

- The guest speaker delved into practical applications of digital health within the context of pharmacy practice. Dr. Mahale showcased how technologies like telehealth, electronic health records, and health apps contribute to improved patient care, medication management, and streamlined pharmacy operations.

3. Current Trends and Future Implications:

- Dr. Mahale highlighted current trends in digital health integration, providing students with a glimpse into the rapidly evolving landscape. The discussion covered topics such as artificial intelligence, remote patient monitoring, and data analytics, empowering students to envision the future of pharmacy practice.

Student Impact and Feedback:

1. Inner Spark and Future Goal Setting:

- The three-hour lecture left a profound impact on the final-year students, igniting an inner spark of enthusiasm and curiosity. Many students expressed a newfound determination to incorporate digital health strategies into their future careers, setting ambitious goals for their professional journey.

2. Enhanced Awareness and Technological Literacy:

- Attendees appreciated the depth of knowledge shared by Dr. Mahale, which significantly enhanced their awareness and technological literacy in the domain of digital health. Students acknowledged the relevance of staying abreast of current trends to remain competitive in the evolving healthcare landscape.

3. Motivation to Embrace Innovation:

- Dr. Keshao A. Mahale's lecture served as a motivation for students to embrace innovation in their future pharmacy practices. The discussion on emerging technologies sparked a sense of adaptability, encouraging students to explore innovative approaches to patient care and pharmacy services.

Conclusion: The event on "Awareness on Digital Health Integration" with Dr. Keshao A. Mahale as the guest speaker was a resounding success. In just three hours, the lecture empowered final-year pharmacy students with a comprehensive understanding of digital health concepts, current trends, and their future implications. The inner spark ignited during this session is expected to propel students towards achieving their goals as future pharmacy professionals who are well-versed in leveraging technology for enhanced patient care and pharmacy operations.
