

Ref. No.: SF/SIPS/19-20/

Event/Activity Report

Name of the Department	Sandip Institute of Pharmaceutical Sciences
Title of the event	Awareness on Pharmacy Data Analytics
Date of event organized	30/08/2019
Name of the coordinator of event	Prof Ashwini Shelke
No. of Participants	60
Name of the expert/ Chief Guest of the event	Mr Chethan Maheshwari (Senior research officer Glenmark pharmaceuticals)
Objective of the event	<ul style="list-style-type: none"> • Provide an overview of the fundamentals of data analytics in the context of pharmacy practice. • Explore specific use cases and applications of data analytics within the pharmacy domain. • Provide guidance on interpreting results and deriving actionable insights from pharmacy-related data.
Outcome of the event	<ul style="list-style-type: none"> • Students will develop a comprehensive understanding of the fundamentals of data analytics and its relevance in the pharmaceutical domain. • Participants will gain hands-on experience with common data analytics tools used in pharmacy settings. • This practical proficiency will empower students to analyze and interpret pharmacy-related datasets, fostering a skill set that is increasingly valuable in the evolving landscape of healthcare. • Participants will appreciate the direct impact of data analytics on patient outcomes and healthcare quality. This awareness will instill a sense of responsibility among students to leverage data analytics ethically and effectively, ultimately contributing to improved patient care.

Event/Activity Report

Introduction: On 20/07/19, SIPS (Sandip institute of pharmaceutical sciences) organized an insightful event on Pharmacy Data Analytics to enhance awareness among pharmacy students. The distinguished guest lecturer for the occasion was Mr. Chethan Maheshwari, a Senior Research Officer at Glenmark Pharmaceuticals.

Key Insights from Mr. Chethan Maheshwari: Mr. Maheshwari's talk delved into the dynamic realm of Pharma Data Analytics, offering a holistic perspective on its applications and significance in the pharmaceutical industry. His expertise as a senior research officer at Glenmark Pharmaceuticals provided students with real-world insights into the evolving landscape of technology in pharmacy.

Event Highlights:

1. Comprehensive Overview of Pharma Data Analytics:

- Mr. Maheshwari provided a comprehensive overview of data analytics in the pharmaceutical context, laying the foundation for students to understand its fundamental concepts and applications.

2. Real-world Applications and Case Studies:

- Students gained valuable insights through real-world applications and case studies presented by Mr. Maheshwari, illustrating how data analytics optimizes processes in pharmaceutical research and development.

3. Practical Implications for Pharmacy Students:

- The talk had a practical focus, enabling students to envision the direct application of data analytics in their future roles as pharmacists. Mr. Maheshwari's insights motivated students to explore this transformative technology.

Outcomes:

1. Elevated Awareness on Recent Technological Advancements:

- The event successfully elevated students' awareness of recent technological advancements in pharmacy, particularly in the domain of data analytics. Mr. Maheshwari's expertise shed light on cutting-edge developments and their implications for the future of pharmaceutical practices.

2. Inspired Curiosity and Engagement:

- Mr. Maheshwari's engaging talk inspired curiosity among students, fostering a desire to delve deeper into the intersection of technology and pharmacy. The event ignited a passion for continuous learning and exploration.

3. Networking Opportunity with Industry Expert:

- Students had the valuable opportunity to interact with Mr. Maheshwari during the session, fostering connections and gaining insights into potential career paths in pharmaceutical data analytics.

Conclusion: The Pharmacy Data Analytics Awareness Program, featuring Mr. Chethan Maheshwari as the guest lecturer, was a resounding success. SIPS is committed to providing students with enriching experiences that bridge academic knowledge with industry insights, preparing them for the ever-evolving landscape of pharmacy and technology.
